## Welcome

Welcome to our catalog introducing the Plast Team collection. We hope that you will enjoy and be inspired by our extensive range of functional and innovative products.

On the following pages, you will also find extensions to some of our best-selling collections, as well as updates on colors and additional sizes for some of our best-selling series.

The catalog is divided in our five main categories:

STORAGE  
FOOD STORAGE  
KITCHENWARE  
CLEANING  
LAUNDRY

## About Plast Team

Plast Team A/S was founded in Copenhagen, Denmark in 1986 with a vision to be the leading partner in Europe supplying plastic products in the categories of; Storage, Food Storage, Kitchenware, Cleaning & Laundry.

Together with Room Copenhagen A/S, Plast Team is also a part of Nordic Houseware Group A/S. Room Copenhagen holds licensing agreements with some of the world's most well-known and loved brands such as LEGO and Crayola.

Plast Team produces and distributes more than 40 million articles every year to more than 25 countries. All our products are designed in Denmark and our production is outsourced to factories in Denmark and Poland. All factories are either ISO certified or audited by external factory auditors.

Our customer portfolio is primarily all the big retail chains in Europe. Besides that, our customers also include specialty stores, loyalty programs, online and much more.

The common thread in all our categories is the touch of Danish design, which on several occasions has been rewarded for its minimalistic and timeless design, quality, unique features and functionality.

Enjoy the reading.

Jacob Eberhard  
CEO

# ONLINE ASSORTMENT

We are happy to introduce our new online assortment to our online customers. We use a high quality of protective packaging, and with a focus on recyclable and renewable solutions. The online assortment contains the following product series; Pro box Storage, Home box, Basic box and Waste Management. All our boxes come in 5 pieces and for Waste management the colli size is 11. For the content to be fully protected, all sets are packed in brown carton boxes and are bubble wrapped.

## **PROBOX**

5 pcs. - With QR-codes for easy overview of storage. Available in 14 L, 21L, 32 L, 53 L, 58 L, 70 L & 31 L bedroller.

## **PROBOX RECYCLE**

5 pcs. - With QR-codes for easy overview of storage. Made from regrind plastic. Available in 14 L, 21L, 32 L, 53 L, 58 L, 70 L & 31 L bedroller.

## **HOME BOX**

5 pcs. - Solid storage boxes.  
Available in 15 L, 30 L, 40 L & 52 L.

## **HOME BOX BEDROLLER**

5 pcs. - Solid under the bed storage box.  
Available in 30 L.

## **BASIC BOX**

5 pcs. - Stackable storage boxes.  
Available in 20 L, 31 L, 52 L, 80 L & 134 L.

## **WASTE MANAGEMENT**

11 pcs. - Smart waste management system.  
Made from regrind plastic.

## AN APP FOR EASY OVERVIEW

All our Airtight QR boxes have a unique QR code on the lid, which makes it easy for you to organize your food and other leftovers with BoxPointer. With the BoxPointer app you can keep track of what items you already have in your fridge and freezer when you are our grocery shopping while keeping track of the shelf life of saved leftovers and opened packages.

BoxPointer is also compatible with our storage boxes ProBox and ProBox Recycle. This way you can scan and mark storage boxes to keep track of content, date and location. This enables you to optimize the use of storage spaces in your home.

The app is free and can be downloaded via the App Store and Google Play.

1) Open the BoxPointer app and scan the QR code on the lid. 2) Place food in the box and then save content and expiration date. 3) Place the box in a fridge or a freezer and allow the app to notify you at the expiration date. 4) Keep track of your food with the app and save both time and money.

Download BoxPointer on  
App Store og Google Play.

# WE LOVE SUSTAINABILITY

## INTRODUCING OUR NEW SYMBOLS

Today, many people are still not aware of the fact that producing plastic can be less damaging to produce than most other comparable products. Instead, plastic is often thought of as being one single and damaging material. In fact, plastic often contributes to the increase of resource efficiency and lower greenhouse gas emissions and is essential to many new ecofriendly innovations. It has even been projected that if alternative materials would replace the packaging used today, our society would experience twice as much energy consumption.

Therefore, as a leading manufacturer of plastic home products, our most important task is to not only take on a prominent role and responsibility by contributing to a sustainable society, but also to educate and promote about recycling and reduction of waste.

We have already produced smarter product designs that promote recycling and reuse,

including new products made from regrind plastics and post-consumer recycling material.

Already being one of the leading producers of sustainable plastic we are now introducing new symbols for sustainable solutions, to make it easier for consumers to make an informed decision on what they want to buy.

Our new pallet displays are made from recycled cardboard

**RECYCLABLE**

**RECYCLED  
PLASTIC**

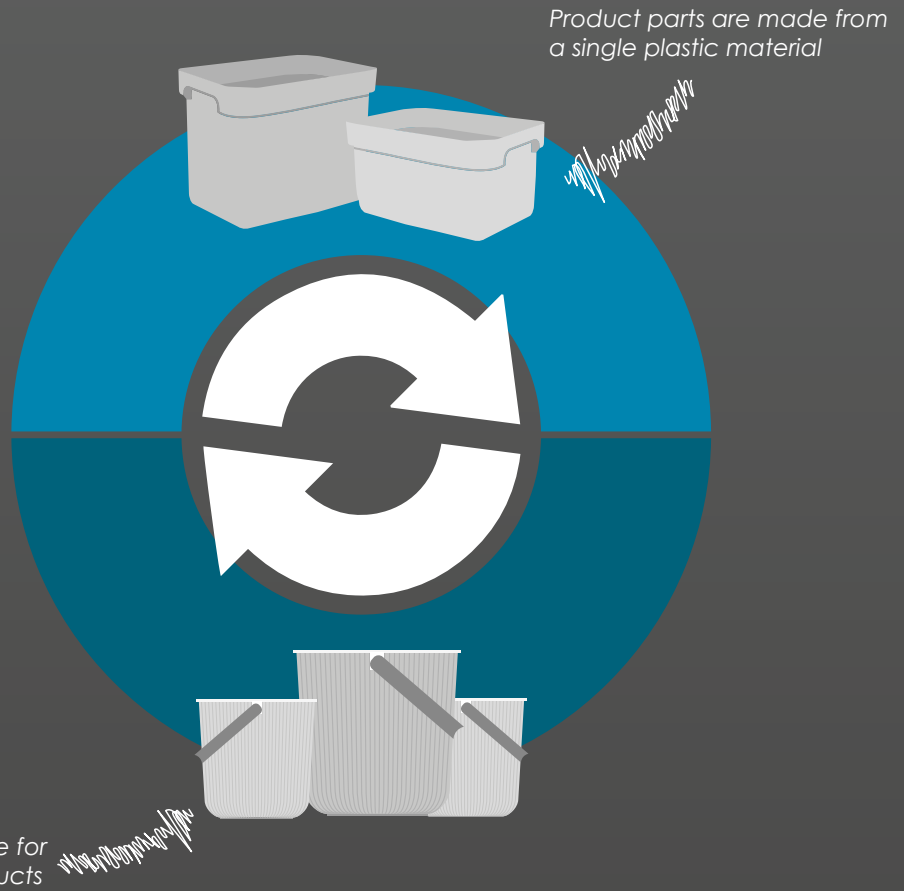

**POST  
CONSUMER  
RECYCLED  
PLASTIC**

## EASILY RECYCLABLE

Plastic is a part of the solution to future resource challenges, as the properties of the materials are easy to recycle, making it an essential material that can help reduce high rates of plastic pollution, conserve resources and thereby eliminate waste.

At Plast Team, we continue to introduce products that are produced in pure plastic, which makes it possible for the product to be reused once its lifetime is over.

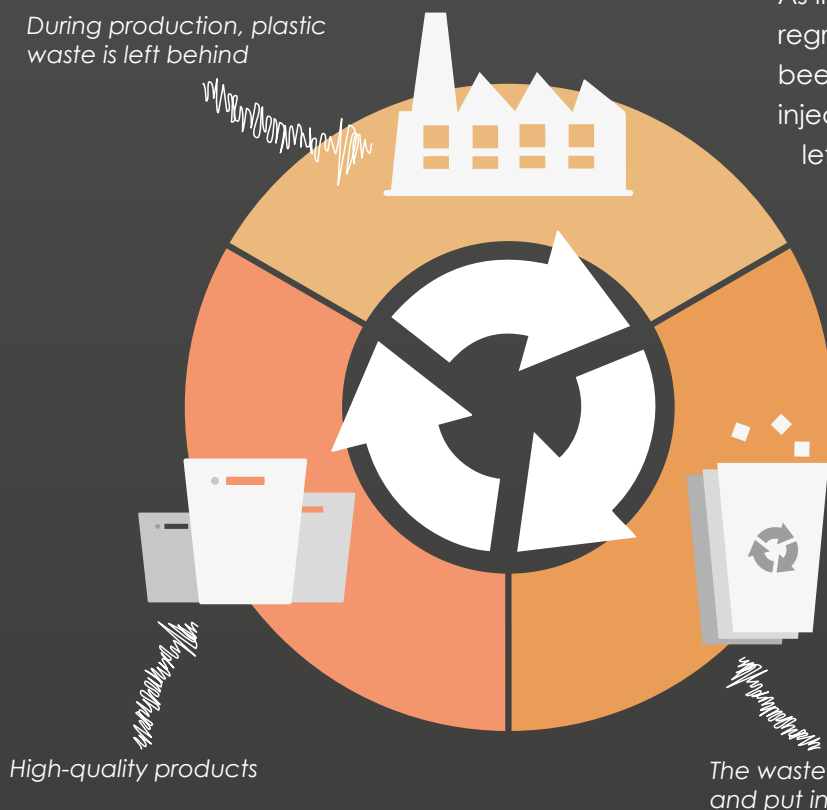

## RECYCLED PLASTIC

As illustrated in the symbol on the left, regrind plastic can be defined as having been processed at least once before. During injection molding, some plastic materials are left behind and instead of wasting it, the materials are collected and sent back to the grinder.

This way, it will be re-introduced when making new products. Due to the sorting and regrinding process, the color of the products is black, but they come in the same high quality.

At Plast Team, we are proud of these products that are a result of a process, which reduces the pressure on natural resources.

## GIVING PLASTIC A SECOND CHANCE

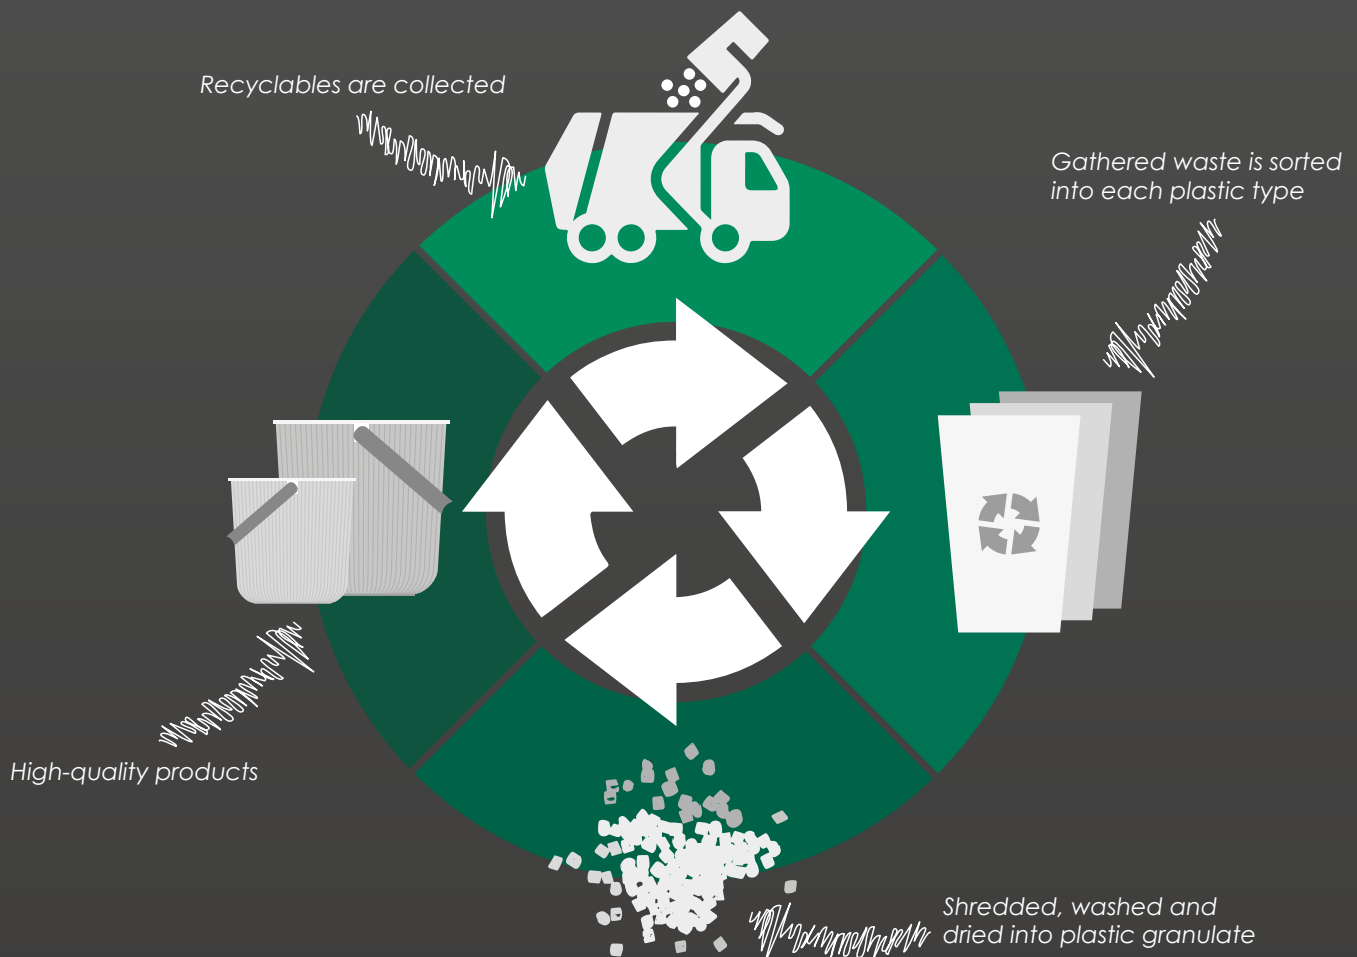

This year, we have continued our aim to make a difference with every new product, and we are therefore proud to announce our first product lines made from post-consumer recycled plastic.

A product that has been produced by post-consumer recycled plastic is, as the name indicates, waste that has been used by a consumer, thrown out and diverted from landfills. More specifically, once a product's lifetime is over, it is collected and then gathered and sorted into the correct type of plastic, followed by the process of being chopped, washed, and dried into plastic grind and finally being reused in the production of high quality products.

Our post-consumer products are great examples showing that it is possible to reuse consumer waste, and thereby produce products in a sustainable way which does not conflict with a beautiful design.

Unfortunately, since post-consumer waste comes from our homes, it is more difficult to separate and collect, which is why it is crucial that all waste is sorted properly.

At Plast Team, we truly believe in giving plastic a second life, in order to prevent tons of material from being left behind in nature.

# STORAGE

# AKITA <sup>NEW</sup>

AKITA is a new range of Danish designed storage buckets in post-consumer recycled material. This series is a result of when sustainability, functionality and design harmonize well.

It can be used for either storage of towels, blankets, magazines or it can be used as a tray for cups and teapot or even as a plant bucket. Whatever you choose to store in the bucket, the classic and minimalist Danish design makes you want to display it in any room of the household.

## FEATURES

- Functional storage buckets
- Modern design
- 2 sizes
- 3 different colours
- Material: Post-consumer PP

# PROBOX SPECIAL

In our Premium storage collection Probox, we have developed several special items in order to help solve more specific storage needs. You can get trays and inserts that will help keep order in the boxes.

Like our Probox series, every box comes with a tag that can be placed on either of the four sides of the box in order to keep track of the contents. The tag contains a unique QR code, which is compatible with our BoxPointer app.

# HOME BOX BEDROLLER

Within the Home Box series, we also offer four practical bed rollers in different sizes; 25L, 30L, 49L and 75L.

Our storage boxes with wheels make it easy to store your belongings under the bed. This is a very practical way of storing things that are supposed to be kept but not used daily. It is perfect for the storage of shoes, clothes, toys or bed sheets. It is possible to choose a bed roller that fits below a child bed and one for underneath a double bed in the parent's room.

# SANSHUI

Storage box system with modular stackable boxes. The double-sided flexible lid with clips makes it possible to reach content without having to move the lid away. The combination of modularity and flexible lid make it possible to reach content inside e.g. the larger boxes when smaller boxes are stacked on top. The roughed surface makes it more resistant to scratches and other impacts.

In this range you will also find a very robust storage box with the volume of 125 L. The lid is attached in the back by two large hinges and closes firmly by two strong clips on the front.

## FEATURES

- Practical
- Double-sided flexible lid (except art. 2228)
- Wheels on bigger items
- 4 sizes
- Material: PP

# TAG STORE

Tag Store is a series of modern "ice cube" inspired storage boxes with a semi-translucent surface that lets you sense but not see what is inside the box. All the boxes come with writeable tags to place in front of the box. The tags are re-writable so you can use them again and again.

The Tag Store boxes have an easy sliding lid with recess to prevent them from shifting when stacked.

The boxes are available in 10 sizes ranging from 1,5 to 70 L and comes with tags in white.

## FEATURES

- Solid storage boxes
- Modern design
- Semi-translucent surface
- 10 sizes
- White tags
- Stackable

# LYNGBY

Lyngby is our range of high-quality food storage containers. The range consists of 3 sizes all with a borosilicate glass bottom and practical plastic lids sealed with a silicone ring securing a tight close. Because of the glass bottom, all containers are suitable for oven and microwave (without lid).

This range is very practical for everyday cooking because by storing and heating food in the same container you save time on the dishes. Additionally, the glass bottom makes it easy to identify the stored food, without having to open the container.

## FEATURES

# AIRTIGHT QR

We are especially proud of this series of Airtight boxes. The range consists of 7 different sizes – from 0,3 to 5L and comes with unique QR-codes integrated on the lid.

The QR-codes are compatible with our BoxPointer app, which is very simple to use. It will help you make sure that you are able to keep track of all your food and leftovers in the fridge and freezer. Hopefully, no more meat and vegetables will pass the expiration date and end up in the dumpster. This is the perfect way to minimize your food waste.

## FEATURES

# HILO LUNCH

The Hilo lunch boxes are a modern design of the traditional lunch box with a two-colored toned body and lid. The modern look, and the choices of colors, make the lunch boxes suitable for boys and girls of all ages. They are easy for children to use, as they either have a screw lid or a clip closure lid.

The design is optimal for transport as the smaller boxes fit inside the big lunch boxes, and both can easily fit into schoolbags. The small inserts enable you to organize the lunch and separate the foods from each other.

## FEATURES

- Firm clip closure
- Screw lid (2 items)
- Easy for children
- Round and square inserts
- Material: PP

# AVEDØRE

Avedøre waste management system helps sorting waste quick and easy. Avedøre is made from regrind plastic - a material that has been processed at least once before. Making new products from recycled material is much better for the environment than using brand new raw material.

The series consists of 3 different baskets, lids, inserts for smaller parts, color dots - for easy overview of waste and brackets to hang the baskets.

## FEATURES

- Smart waste management system
- Made from recycle plastic
- 4 sizes (incl. insert)
- Color dots - easy overview
- Material: REG

# BINS

The assortment offers a wide range of different rubbish bins. On all the swing bins the top part can be bend back to get better access to the bin and taken off to easily change the bag and dispose refuse.

Pedal bins are opened by pushing the pedal on the bottom part of the bin. The insert bucket has a large handle for easy removal of the bag and dispose refuse.

The American Bucket has a firm closure of the lid by two-sided clip-system. The lid entails a large handle for easy carrying and transporting the bucket.

## FEATURES

- Functional bins
- Different sizes
- Both swing bins and pedal bins
- Easy dispose refuse
- Material: PP

# SEOUL LAUNDRY & LINEN<sup>NEW</sup>

With our new Seoul laundry and linen baskets, we are introducing a completely new series of stylish laundry assortment. A laundry basket is an indispensable thing for the home, so why not make sure it has a look that makes you want to display it.

Like our Seoul baskets and organizers, the Diamond-shaped holes give the laundry baskets a modern look, without revealing the contents of the basket.

Besides the linen basket, the laundry baskets come in 2 variables; 1 corner and 1 oval laundry basket with an insertable divider. That way you can still organize your laundry by colour or fabrics.

## FEATURES

- Diamond-shaped holes
- Modern design
- Different shapes
- 3 different colours
- Material: PP

**CAMPAIGN**

# CAMPAIGN

Up until now we have introduced our Standard Assortment. All these items are by default available on stock in the colors presented in the defined categories.

However, that is not all we can offer. In addition to the Standard Assortment we have our campaign items. These items are not on stock by default and the molds will only be in production following orders meeting special requirement.

All the campaign items have individual MOQ (minimum order quantities) and will need case by case approval from Plast Team management. These special requirements and reservations also include color choice, cost price, lead-time and packaging. Please note.

We are confident that the combination of our standard and campaign assortment will meet most household needs within our four categories.
